DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Surdyk.
3. Claim 2 is a product by process claim. The patentability of such claims is determined by the patentability of the product. Although produced by a different process the product of Surdyk (particle board having phosphate and borate fire retardants and binder) appears to be identical that which is claimed. The burden is upon applicant to provide evidence that the prior art product does not possess the characteristics of the claimed product. See In re Thorpe, 227 USPQ 964 (CAFC 1985).

Allowable Subject Matter

4. Claims 1 and 3-14 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not suggest a combined phosphate/borate fire retardant treatment to green wood furnish.
